Five piece liner, snap fits together

Single packed into one convenient box

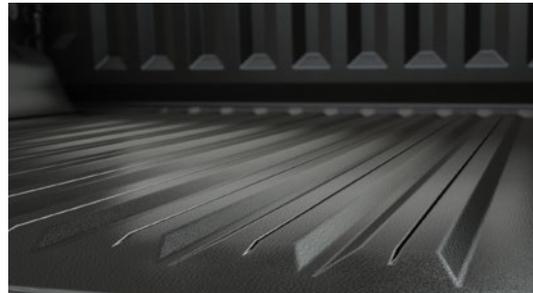

Fully integrates with TANGO and LOADMASTER

SPORTGUARD™

Revolutionary bed protection

Using a five piece design, the SPORTGUARD has many features which overcome the limitations of traditional bedliners.

- *Non-skid rubber floor protects both your cargo and your truck bed*
- *Single units can be packed into one convenient box*
- *Stylish design, beyond a standard liner*
- *Snap-fit installation in just minutes using only basic tools*
- *Non-drill fitment*
- *Allows access to factory tie hooks*
- *Made in New Zealand using high quality materials*

SPORTGUARD's rubber TPE floor is not only super tough but super grippy, giving it far greater functionality over traditional liners which tend to be very slippery and the main causes of cargo damage
